

Easter EGGs

EGG Easter Party:

The annual EGG Easter party will be held on Sunday April 3rd (TOMORROW)! We will convene at the Burdette Park Clubhouse, from roughly 10am to 10pm. EGG will not be selling food for the event, although there will be an open grill. So bring your own meat, and something to share.

We will be having our annual Easter EGG hunt, sometime in the afternoon, so come prepared to take a walk in the woods! As usual, the eggs will contain dice, chocolate, and other prizes!

And don't forget, the *Dungeon Delve of Death III: Meepo's Revenge* takes place Sunday afternoon at the party! Have your 18th level PCs ready to die...er... adventure in this fundraising delve written by Philip Scott. Entry is \$5 and \$1 resurrects your PC each time you die.

Arcanis Con-Carne:

Get your con on! EGG will be running an all-night marathon Arcanis event over Memorial Day weekend. This will be an open-library event, with everything currently available from RPGA on order. We hope to also have a premiere, and a marketplace, as we have at past similar events. This time there will be a \$2 badge fee, as well as the \$2 per slot table fee we have charged at past events. Check out the schedule on the EGG website.

Hungry at games?:

Jim Jones of Comic Quest has informed us that his ban on outside food brought into the store has been lifted! Hoorah! **BUT** members should be aware that the GM for each table is now responsible for making sure every person at their table cleans up their messes. If the gaming areas get trashed again, food privileges may be permanently revoked.

Preorder Discounts:

Jim Jones has let us know that if you find something you like in the newest Game Trade magazine, and you pre-order it, you will receive **20% off!!!** That's **DOUBLE** the usual EGG discount. But you have to pre-order, and leave your contact information with the folks behind the counter. Sounds like a great deal to us!

Upcoming Conventions:

- **CODCON X:** April 13-15, Glen Ellyn, Illinois. Website: <http://www.geocities.com/scificod/>
